After breakfast, journey to the lowest point on earth. Along the way get a glimpse of how the landscape changes so quickly in Palestine. Our first stop is Nabi Musa; an Ayyubi shrine that stands beautifully in the Palestinian wilderness overlooking Jericho, the city of the moon and the oldest inhabited city in the world.

Next, we meet some Bedouins and learn about Bedouin culture and experience Arabic hospitality at its best.

Then we head to the Dead Sea. It's the deepest Salt Lake in the world and it's rich in mud and minerals used for natural healing and skin exfoliation. Its water has such buoyancy that can make you float instantly. Can you find a reason not to take this once in a life time dip?
